

Team Involvement in Demonstration

Date	15 March 2026
Team ID	TM-OPTICROP-04
Project Name	OptiCrop: Smart Agricultural Production Optimization Engine
Maximum Marks	1 Mark

This document records the active participation and roles of each team member during the project demonstration. It ensures that every member contributes meaningfully to the presentation.

Step 1: Team Member Roles & Contributions

S.No	Team Member Name	Role in Demo / Section Presented	Contribution Summary	Participation
1	Tejasree R	Precision Agriculture / ML Recommendation	Machine Learning engine using NPK, soil pH, climate metrics to recommend optimal crops for maximizing yield.	Active
2	Teja Sri Anke	Soil & Climate Compatibility Assessment	Interactive digital suitability tool to evaluate user soil inputs against custom crops and report constraint bottlenecks.	Active
3	Sravanth Gadiyam	Agricultural Data Analytics & Policy Planning	Macro-level analytical platform for researchers and policy planners to visualize spatial trends and farming strategies.	Active
4	Sravanth Gadiyam	Climate Hazard & Predictive Alerts	Real-time automated alert system for unexpected climate shocks impacting already sown seasonal crops.	Active
5	K Harish	Hardware Integration / IoT	IoT-integrated soil probe interface transmitting direct live nitrogen/potassium metrics to a Flask backend module.	Active
6	Sravanth Gadiyam	Sustainable Farming Optimization	Optimal multi-crop rotation scheduling simulator based on structural nutrient depletion trends across seasons.	Active
